**Statement from Randy Barber, President & CEO, [CRU-DataPort](#)
Re: StorCase closure**

Vancouver, WA, USA - We are sorry to see [StorCase](#) leave our product category. They were a strong competitor who helped push us toward innovation and improvement at every turn. We understand how staying ahead of market changes and customer requirements are a constant challenge; if your business model takes you in a different direction, you have no choice but to do the right thing for your customers and for the business. www.CRU-DataPort.com www.storcase.com
